

Nisha Kumari Yadav

Backend Developer Intern

✉ yadavnisha1289@gmail.com ☎ 9820345144 📍 Nepal 🌐 github.com/Nishayadav21

PROFESSIONAL SUMMARY

Final-year Computer Engineering student with practical experience in backend development using Node.js, Express.js, MongoDB, JWT Authentication, and REST APIs. Built a complete CV Builder Backend application featuring authentication, authorization, CRUD operations, protected routes, and skill analysis. Also developed a Flutter-based hospital management application.

EDUCATION

BE in Computer Engineering

Madan Bhandari College of Engineering (Pokhara University)
Currently Pursuing - Final Year, 8th Semester

Present
Urlabari-03, Morang,
Nepal

TECHNICAL SKILLS

Programming

JavaScript

Backend

Node.js, Express.js

Database

MongoDB, Mongoose

Authentication & Security

JWT, bcrypt

Mobile Development

Flutter

Tools

Git, GitHub, Postman, VS Code, Android Studio

PROJECTS

CV Builder Backend API

- Developed a complete RESTful backend application for CV management.
- Implemented registration and login APIs.
- Secured passwords using bcrypt hashing.
- Implemented JWT-based authentication and authorization.
- Built CRUD APIs for CV management.
- Developed Skill Analysis API.
- Protected routes using middleware.
- Integrated MongoDB using Mongoose.
- Tech Stack: Node.js, Express.js, MongoDB, Mongoose, JWT, bcrypt

Easy Meds – Hospital Management System

- Developed a Flutter application for doctor appointment booking.
- Integrated backend services using Node.js and MongoDB.
- Designed user-friendly interfaces for patients and doctors.

ACHIEVEMENTS

- Built and tested secure backend APIs using Postman.
- Implemented authentication and authorization workflow from scratch.
- Developed backend modules using Express.js and MongoDB.
- Integrated MongoDB Atlas cloud database.
- Hands-on experience with Git and GitHub version control.
